

## Container Registry in IBM Kubernetes

- Select the required specification

- We can monitor the clusters over here:

The screenshot shows the 'Kubernetes clusters' management page. On the left is a sidebar with navigation links: 'Kubernetes', 'Clusters' (highlighted), 'Reservations', 'Helm catalog', and 'Container Registry'. The main area has filters for 'Resource group' and 'Location', a search bar, and a 'Create cluster' button. Below is a table with one cluster entry, 'mycluster-free', which is in a 'Normal' state at 'Paris 01' location with 1 worker. It has a version of '1.24.7\_1542' and is 'Classic' infrastructure. A red badge indicates it 'Expires in 30 days'. At the bottom, there are pagination controls showing '1 of 1 page'.

Name	State	Location	Worker count	Created	Version	Infrastructure
mycluster-free	Normal	Paris 01	1	Expires in 30 days	1.24.7_1542	Classic
